

**Amendments to the Specification:**

Please replace the title as follows:

LITHIUM ION SECONDARY BATTERY HAVING ENHANCED  
WELDABILITY AND SEALING CAPABILITY

Please replace paragraph [0031] with the following rewritten paragraph:

[0031] As such, although the protruded terminal 230 is protruded through the flange of the can 210, the protruded terminal 230 is protruded to the outside through the predetermined area having a width larger than other areas, thereby allowing easy installation of the ~~cooling jig 40~~, cooling jig 240, which is contacted to the container.
